

101

Steam Cleaning Equipment Detergent

Product Description

101 is a free flowing powdered, highly alkaline cleaner formulated for use on ferrous metal for steam cleaning applications of commercial equipment.

Performance Features

- Quickly Removes Baked on Carbon Deposits, Oils, Heavy Greases, and Other Soils Commonly Found in Janitorial, Restaurant, and Facility Maintenance Applications
- Excellent Rinseability Leaving Equipment Clean, Bright and Residue Free
- Formulated With NO Useless Fillers Delivering Maximum Usage Life

Physical Specifications

Physical State	Granular Solid
Appearance	Tan
pH	> 13
Rinseability	Excellent

Equipment Requirements

101 can be used in all steam cleaning equipment.

Product Make-Up

101 is a highly concentrated powdered steam cleaning detergent. Dilute prior to use.

Concentration and Application Methods

Steam Cleaning Systems

Add 10 - 20 oz. of 101 per gallon of water to concentrate tank. Adjust system to dose 0.1% - 1.5% of cleaner concentrate to the nozzle.

NOTE: Always add 101 to water, never water to 101 to avoid hazardous spattering, heat buildup, and splash-back.

Companion Products

See Seacole's Janitorial, Restaurant, and Facility Maintenance product line.

Technical Data Sheet

Safety and Handling

Read and understand this products MSDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.
