

## 28PB Pressed Board Release Agent

### Product Description

28PB is a versatile, economical, non-hazardous, detergent release agent. It is a water based release agent designed specifically for use in the particleboard, strand board, and AG fiberboard industries. It can be diluted with water in most applications for great economy and release characteristics.

### Performance Features

- Applies Easily And Spreads Evenly
- Does Not Contain Any Petroleum Distillates or Chlorinated Solvents - Reducing Chemical Costs and Waste Disposal Costs Over Solvent Carried Systems
- Safe On All Surfaces; Will Not Attack Metals
- Provides Exceptional Release Properties
- Resists Formation Of Heavy Build-Up On Forms
- Safe To Handle and Allows For Easy Clean-Up

### Physical Specifications

Physical State	Liquid
Appearance	Milky
pH	9.5 10.5
Solids (App.)	23%

### Equipment Requirements

28PB is safe for use in most particleboard, strand board, and AG fiberboard press lines.

### Product Make-Up

28PB can be used as is or diluted for greater economy and adjustable release characteristics.

### Concentration and Application Methods

Operation and dilution strengths should be in accordance with equipment manufacturers use instructions.

### Companion Products

See Seacole's Specialty Products product line.

## Technical Data Sheet

### Safety and Handling

Read and understand this products MSDS before handling.

### Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

### Ordering Information
