

555

Multi-Metal Safe Cleaning and Deburring Compound

Product Description

555 is a liquid version of our popular 517 cleaning and deburring compound. 555 is an excellent non-chromated liquid cleaner for use on all metals in deburring and grinding operations. 555 is formulated with an advanced in-process rust protection and anti-foam package.

Performance Features

- Suitable At Any Concentration For Zinc And Even The Most Sensitive Aluminum Die Castings, As Well As All Ferrous And Non-Ferrous Metals And Plastics
- Removes Oils, Grease, Shop Oils, Rust Protective Films And Other Contaminants
- Keeps The Media Free Of Contaminants
- Mixes Easily Without Agitation, Leaving No Undissolved Particles To Pack Into Holes Or Crevices, Or To Plug The Drain System As Some Powders Might
- Keeps A Low Foam In Agitated Systems
- Protects Parts From Rusting And Corrosion During Processing
- Does Not Have The Tissue Irritating And Toxic Hazards Of Chromate

Physical Specifications

Physical State	Liquid
Appearance	Pale Amber
pH (Use Dilution)	9 - 10
Rinseability	Excellent

Equipment Requirements

555 is safe for use in all standard mass finishing systems. Operation of equipment should be done in accordance with the equipment manufacturer's instructions.

Product Make-Up

555 is a concentrated cleaning and deburring compound. Dilute to specified strength concentrations.

Concentration and Application Methods

Add .5 - 4 oz. of 555 per gallon of water for mass finishing solution. Rinse parts with fresh water after finishing.

Technical Data Sheet

Companion Products

See Seacole's 500 Mass and Metal Finishing Series.

Safety and Handling

Read and understand this products MSDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

Ordering Information

555 is available in 55 gallon drums.
