

## 919

### Ready-To-Use Ammonia Glass Cleaner (Winter)

#### Product Description

919 is a heavy duty, ammonia / isopropyl based, ready-to-use general purpose glass and surface cleaner formulated for use in cold temperatures or on heavy soils. 919 can be diluted with up to 8 parts water for greater economy when used in warm temperatures.

#### Performance Features

- Cleans and shines windows, windshields, appliances, counters, fixtures and everything made of glass, chrome, stainless steel, plastic, vinyl, glazed tile, and porcelain.
- Removes soot, dust, grease, finger prints and smudges.
- Does not freeze in temperatures as low as -5°F, making it ideal for window cleaning during winter weather.
- May be diluted with up to 8 parts water for greater economy in warm temperature use.

#### Physical Specifications

Physical State	Liquid
Appearance	Blue
pH	> 10
Rinseability	Excellent

#### Product Make-Up

For cold temperatures as low as -5°F or heavy-duty cleaning, use 919 at full strength. To clean windows and mirrors, porcelain and most cleaning jobs in warm temperatures dilute 919 with up to 8 parts of water before use. For temperatures below -5°F, use Winter Windshield Wash.

#### Concentration and Application Methods

Spray 919 onto surface and wipe with a clean lint free cloth or paper towel. For the best streak free performance, turn towel to a clean surface frequently. Polish dry with a clean paper towel.

#### Companion Products

Winter Windshield Wash, 918, Break, 147, Total, Release

## Technical Data Sheet

### **Safety and Handling**
