

## Full Force Antifreeze Antifreeze Concentrate

### Product Description

Full Force is a concentrated antifreeze. Full Force meets or exceeds all ASTM and SAE performance standards for corrosion protection for automobiles and heavy-duty engines. Full Force's universal formula provides new car aluminum protection and meets the low silicate requirements for heavy duty engines. Provides maximum protection against freeze up and boil over.

### Performance Features

- Prevents Cooling System Freeze Up
- Prevents Scale Build-Up
- Prevents Hazardous Boil Over
- Protects Against Sludge Clogging
- Provides Rust and Corrosion Protection

### Physical Specifications

Physical State	Liquid
Appearance	Green
Odor	Mild
Freeze Point	0°F
pH (50% Water Solution)	≈ 10.5 - 11

### Product Make-Up

Full Force Antifreeze is packaged concentrated. Dilute to manufacturers suggested strength concentrations.

### Companion Products

See Seacole's Railroad and Heavy Equipment product line.

### Ordering Information

Full Force Antifreeze is packaged in cases containing 6 - 1 gallon jugs and 55 gallon drums.

13505 Industrial Park Blvd. Plymouth, MN 55441
