

Technical Data Sheet

Product Code: A440LXX Revised Date: 10/23/2024

440LF

Product Description

440LF is a low foaming, heavy-duty liquid floor cleaner formulated to clean facility, warehouse, shop and garage floors. 440LF was engineered for automatic floor scrubbers. 440LF provides extra penetration of the toughest grease and oil laden floors and will not remove or harm common shop floor sealants.

Performance Features

- Quickly removes heavy grease, oils, lubricants, and tire marks
- Engineered to prevent excess foam problems

Physical Specifications

Physical State	Liquid
Appearance	Amber
pH	≈13
Rinsability	Excellent

Equipment Requirements

440LF is formulated for use in automatic floor scrubbers. 440LF can also be used in mop/bucket applications.

Product Make-Up

440LF is a concentrated industrial floor laner. Dilute to specified concentration.

Concentration and Application Method

Mop/Bucket or Pressure Washer

For heavy duty shop floor cleaning, add 10%–20% by volume of 440LF to a mop bucket filled with HOT clean water. Apply to the surface to be cleaned with mop or brush. Where soil deposits are heavy, let soak for 5 to 15 minutes and brush if possible. Follow with additional mopping or a thorough hose or high- pressure water rinse. For additional soil removal, wet-vacuum dry-cleaned area.

Automatic Floor Scrubbers

For heavy duty shop floor & hard surface cleaning, add 10%–20% by volume of 440LF to the already water filled solution tank. Adding 440LF to the tank after filling with water will diminish foam production. Hot water temperatures for most plastic-tanked scrubbers should not exceed 140° F. Where soil deposits are heavy, a double pass may be necessary. Rinse with clean water. Operation of equipment should be done in accordance with the equipment manufacturer's instructions.

Companion Products

Please see Seacole's Industrial Cleaning Catalog.

Safety and Handling

Please review and understand the 440LF SDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations.

Ordering Information

440LF is available in 4x1-gallon bottles, 5-gallon pails, and 55-gallon drums.
