

# CONTRACT MANUFACTURING

# CUSTOM CHEMICAL BLENDING SOLUTIONS

## Warehouse and Production

85,000 square feet

- 21,000 Square Feet of Production Space
- 51,000 Square Feet of Warehouse Space
- H3 Rated Flammable Room
- H4 General Warehouse

## Liquid Blending and Chemical Production

- 2–3,000 Gallon Stainless Steel Tanks
- 1–2,500 Gallon Poly Tank with Variable Speed Mixer
- 1–2200 Gallon Heated/Cooled Jacketed Stainless Steel Tank
- 1–2000 Gallon Heated/Cooled Jacketed Stainless Steel Tank
- 2–1,050 Gallon Poly Tanks
- 2–500 Gallon Poly Tanks
- 1–400 Gallon Heated/Cooled Jacketed Stainless Steel Tank
- 1–300 Gallon Heated/Cooled Jacketed Stainless Steel Tank
- 3–300 Gallon Poly Tanks
- 2–165 Gallon Poly Tanks
- 4–55 Gallon Poly Tanks
- Tanks Smaller Than 500 Gallons Have Interchangeable Fixed-Speed Mixers
- RO Water System

## Liquid Filling and Packaging

3-Bottle Filling Lines with Various Capabilities (Heat Sealer, Labeler, Heat Tunnel, Lot Coder)

- Quarts
- Gallons
- Pails
- Drums
- Totes
- Tankers

## Powder Filling and Packaging

- Pails
- Drums
- Super Sacks

## Powder Mixing

- 300 Cubic Ft Stainless Steel Ribbon Blender
- 140 Cubic Ft Mild Steel Paddle Blender
- 82 Cubic Ft Stainless Steel Paddle Blender
- 24 Cubic Ft Stainless Steel Paddle Blender
- All with the Ability to Add Liquid Materials to the Blend

## Laboratory Services and Equipment

- Atomic Absorption Spectrophotometer (AA)
- Gas Chromatograph (GC)
- Autotitrator
- Viscometer
- Flash Point Tester
- Turbidimeter
- Comparator
- Moisture Analyzer
- Retained Samples of All Manufactured Products

## Chemistries We Handle

- Strong Acids
- Strong Alkalis
- Combustibles
- Oxidizers
- Flammables
- Surfactants

## CERTIFICATIONS
